

Initiatives and tools at the heart of the project

[Biodiversity Finance Initiative \(BIOFIN\)](#)

supports governments and the private sector to use financial solutions as a mechanism for biodiversity.

[Biodiversity Indicators Partnership \(BIP\)](#)

a global community of over 80 partners involved in the development, delivery, support and use of biodiversity-related indicators.

[Data Reporting Tool for MEAs \(DaRT\)](#)

provides private and secure national working spaces for Parties to effectively use synergies in the field of knowledge and information management for national reporting to biodiversity-related conventions.

[Essential Life Support Area maps \(ELSA\)](#)

an integrated spatial planning approach developed by UNDP that enables countries to create 'Maps of Hope' for better decision-making around nature, climate, and sustainable development.

[Indicators for the post-2020 global biodiversity framework](#)

provides metadata for each of the headline indicators proposed as part of the monitoring framework for the GBF and up to date information about the monitoring framework and resources.

[NBSAP Forum](#)

a web-based community of practice aiming to support countries in implementing the CBD and its strategic plans, including the GBF.

[System of Environmental Economic Accounting \(SEEA\)](#)

integrates economic and environmental data for decision making to develop a view of the benefits of the interrelationships between the economy and the environment and the stocks and changes in stocks of environmental assets.

[Target Tracker](#)

a real-time tracker of progress towards the GBF, using headline indicators to visualize progress.

[UN Biodiversity Lab \(UNBL\)](#)

a spatial data platform that provides access to global spatial data and analytics for insight and impact to support national stakeholders to deliver on the post-2020 GBF and the 2030 Agenda for Sustainable Development.

[UNEP Financial Initiative](#)

brings together a large network of banks, insurers and investors that collectively catalyses action across the financial system to deliver more sustainable global economies.

[UNEP-WCMC National Ecosystem Assessment Initiative](#)

supports countries to undertake national ecosystem assessments and empower the full consideration of the value of nature in decision-making.
